

## Early Journal Content on JSTOR, Free to Anyone in the World

This article is one of nearly 500,000 scholarly works digitized and made freely available to everyone in the world by JSTOR.

Known as the Early Journal Content, this set of works include research articles, news, letters, and other writings published in more than 200 of the oldest leading academic journals. The works date from the mid-seventeenth to the early twentieth centuries.

We encourage people to read and share the Early Journal Content openly and to tell others that this resource exists. People may post this content online or redistribute in any way for non-commercial purposes.

JSTOR is a digital library of academic journals, books, and primary source objects. JSTOR helps people discover, use, and build upon a wide range of content through a powerful research and teaching platform, and preserves this content for future generations. JSTOR is part of ITHAKA, a not-for-profit organization that also includes Ithaka S+R and Portico. For more information about JSTOR, please contact [support@jstor.org](mailto:support@jstor.org).

NOTES FROM ILLINOIS.—The first Bluebird call was heard March 4th, inaugurating spring, as it seems, and a most pleasing sound to hear after our long, cold winter, the hardest for nearly thirty years, so it is said, barring possibly, the season of 1892-'93.

Mr. Isaac E. Hess, of Philo, Champaign county, reports the first Robin February 14th.

Miss Elizabeth Eldridge writes of seeing a Flicker about their place, near Plainfield, Will county, 'till the very last of December, notwithstanding the arctic spell of weather which reigned throughout the month.

We naturally would expect some far northern visitors this winter, and, for the first time in many years, the Snowy Owl has been reported as spending a portion of the season here in DuPage county, one having been seen in Addison township, December 29th, by Mr. G. A. Abbott, of Chicago, and later, for the first two weeks of February another appeared quite frequently on the outskirts of this village. Unfortunately it was not the writer's privilege, owing to illness, to witness this visitation.

In some portions of the state Quail are said to have suffered.

*Glen Ellyn, Ill.*

#### PERSONAL.

##### OUR MEMBERS HERE AND THERE.

Our president, Frank L. Burns, is very busy with his monograph of the Broad-winged Hawk, which promises to eclipse his former monographs of the Crow and the Flicker.

Mr. Isaac E. Hess of Philo, Ill., whose recent article in the "Auk," "Breeding Birds of Central Illinois," has caused so much favorable comment, has joined our ranks. We bid him a hearty welcome in our midst.

Send your Field Notes to the Wilson Bulletin!

The Farmers' Bulletin 383 of the U. S. Dept. of Agricult. entitled "How to destroy English Sparrows," was prepared by our fellow-member, Dr. Ned Dearborn. It is a good piece of work, practical and useful to the farmers. The only fault—not Mr. Dearborn's to be sure—is the poor picture, but we have never seen a good picture in any of the Government's publications to the farmers.

Rev. Gustave Elfrig has moved to Addison, Ill., where he now holds a professorship. We hope to have an article on birds from his pen ere long.

Don't hide your Field Notes in the pigeon holes of your desk; send them to the Wilson Bulletin!

Our member, the Hon. R. M. Barnes, of Lacon county, Ill., the able editor of the "Oologist," enjoyed a California vacation trip to
